

AIRBOX H Data Sheet

The AIRBOX H Hand Dryer is a new pioneering hand dryer from Handy Dryers that features an ultra-small footprint so it will fit in to almost all spaces it could be needed. The small size doesn't affect the quality of the drying unit though, still featuring ultra-fast dry times thanks to the advanced airflow technology featured inside the unit. Even though the unit features a fantastic low price the quality of components used inside The AIRBOX H ensure the unit runs effortlessly and offers the reliability that users expect from our machines. Thanks to the powerful motor inside The AIRBOX H you will benefit from lower energy consumption and minimised drying times. These factors combined result in massively reduced energy costs and less time spent in the bathroom for users. Latest Air Technology: Blade low noise air science

- Ultra-small footprint
- Brushed 304 stainless steel and enamel powder coated white
- UK leading hand dryer supplier
- Two-year warranty on all units

Technical Specification
