

The Buffillo. Traditional styling, advanced technology.

This dryer incorporates the best of original and new technology. Like many traditional dryers you'll have seen, the Buffillo comes with a rotating exterior nozzle, enabling hands, faces, hair or clothes to be dried safely and easily. This makes it the ideal investment for leisure facilities such as gyms, swimming pools and sports centres, where damp hair and wet kit abound.

But the Buffillo's classic looks are deceiving, featuring a strong 1.2mm steel cover, weld free with anti-vandal screws, it's sturdier than you think. This dryer is packed with advanced technology, giving it the edge over any traditional model on the market.
