

Vulcan Data Sheet

A superb addition to our high usage range, the **ULTRA LOW NOISE** Vulcan is a modern 'V' shaped blade design built to last with all the latest features you would expect in a state-of-the art hand dryer.

Unlike it's contemporaries, the Vulcan's twin blades are angled down in such a way as to direct spray AWAY from the user whilst drying their hands together or individually at high speed. The Vulcan hand dryer is finished by hand to give it its unique shape and robust exterior. Underneath this hard shell, there is a HEPA filter, adjustable and sensor, adjustable air speed hand even a control to turn the internal heating element on or off.

The Vulcan hand dryer will give years of reliable service and is perfect for high volume environments.

- High Power twin 'V' blade
- Ultra-Low Noise, Variable power and selectable heating element
- High volume usage: HEPA filter
- Hand finished satin 304 stainless steel: or tough powder coating

Technical Specification

Operating Power	220-240 Vac, 50/60 Hz, 1.5kW to 2.0 KW
Warm Air Speed Output	90 m/S
Heater Element	Selectable 1300W or OFF
Drying Time	8 to 10 seconds
Timing Protection	60 seconds auto shut off
Drip proof	IPX1
Isolation	CLASS 1
Net Weight	5.4 kg [11.88 lbs]
Unit Size	325 mm W x 310 mm H x 188 mm D
Warranty	2 Years (1st Year Parts + Labour)
Noise Level (at 1m)	74.5 dBA
